

Information Ethics, Inc.

Making Sense of the Information Age

Information Ethics improves outcomes of computer technologies for all stakeholders.

David H. Gleason has provided high-quality systems consulting services since 1983. Widely published, Mr. Gleason is an internationally recognized expert in the ethics of information technology. His 20 years experience in systems have demonstrated beyond doubt the business value of impact analysis.

Through consulting, teaching and speaking, Mr. Gleason has helped people solve their IT problems. He has spoken at international conferences on technology and ethics issues at *Computer Ethics, Philosophical Enquiry* in London, annually at ETHICOMP in Rotterdam, Rome, Gdansk, Lisbon and Greece, and at various colleges and universities, including: LeMoyne College, Boston University School of Management, Holy Cross College, Boston College, Dartmouth College and New England School of Law. He teaches an ethics course at the Beacon Hill Seminars, and has been published and quoted in U.S. and international publications such as the *Handbook of Business Strategy*.

A certified Project Management Professional, Mr. Gleason holds an M.A. in Religion from Boston University and a B.A. in Physics & Philosophy from Connecticut College.

Testimonials

David has humor, patience, a great ability to teach and an even greater ability to listen and clarify our thinking. Over the years we have grown to rely upon him, his good character, and his sense of integrity.

Anita Silvey
Former Vice President,
Houghton Mifflin Company

[David is] thoughtful and engaging, allowing the students to probe deeply into a topic for which there are no clear answers yet.

Andy Hoffman
University of Michigan

[We] are so grateful to you for coming to share your wisdom and insights with us. The students in my Ethics Class are very lucky to have had someone like you address them.

Paul Brian Campbell, S.J.
Le Moyne College

David's unique combination of technical knowledge and genuine teaching ability enables him to succeed at making technology work for people. Our association has been marked by professionalism, generosity and, most importantly, integrity

Majie Zeller
Educational Consultant
