

Dr. Dean Robb is a business strategist with a focus on corporate entrepreneurship and organizational dynamics. He has helped numerous domestic and foreign business leaders build high-performing, innovative enterprises since 1994. His expertise combines 26 years of practical, real-world experience with in-depth research in human and organizational systems. His focus is on discovering the core principles and practices that enable human systems to continuously reinvent themselves and remain vital, creative and "alive."

Dr. Robb is an informative speaker who demonstrates solid knowledge to help companies build the foundations for "renewable corporate entrepreneurship".

He has a doctorate in Human and Organization Systems, an M.A. in Human Development, an M.S. in Statistics and a B.S. in Mathematics.
